

LUMIN SMART PANEL CIRCUIT LABEL & CT TABLE V2.1

INSTALLER: PLEASE COMPLETE THE TABLE BELOW & RETURN IT TO THE HOMEOWNER

HOMEOWNER: USE THE COMPLETED TABLE TO CREATE YOUR LUMIN SMART PANEL (LSP) ACCOUNT

LSP LINE #	PHASE (circle one)	CIRCUIT BREAKER LABEL/NAME	LSP LINE #	PHASE (circle one)	CIRCUIT BREAKER LABEL/NAME
1	A		7	A	
	B			B	
2	A		8	A	
	B			B	
3	A		9	A	
	B			B	
4	A		10	A	
	B			B	
5	A		11	A	
	B			B	
6	A		12	A	
	B			B	
		CURRENT TRANSFORMER (CT) LINE			CURRENT TRANSFORMER (CT) LINE
Line A/B CTs		Main Service Lines	Aux. A/B CTs (Optional)		

INSTRUCTIONS: Record each circuit label/name with the corresponding LSP line number and note the appropriate phase (A or B) of each connected circuit. For example, record "Refrigerator" in the cell next to LSP Line #1 and circle Phase A if the circuit labeled "Refrigerator" is on phase A and is connected to LSP's Line #1. Dual-pole circuit breakers will utilize two LSP line numbers. Record the line name of the optional second pair of CTs (ex. "PV/solar output").

NOTE: Please double-check the circuit breaker labels, circuit breaker phase and their corresponding LSP line numbers to ensure the table is accurate.

QUESTIONS? Please refer to Lumin's Installation Manual or contact Lumin Support at 1-888-421-0616 or support@luminsmart.com
